

OWNERSHIP TRANSITION

Improve Your Cash Flow and Vehicle Uptime

How can you unlock the equity that's tied up in your truck fleet?

Idealease can show you the money. Our Ownership Transition program will help you release the cash that is sitting in your truck fleet and improve your service to your customers.

Let's do the math. Using our Acquisition Analysis software, we can show you the true cost of truck ownership and the reasons that more than half of today's private carriers have converted from ownership to leasing. We will develop an ownership buyout offer for your current truck fleet that can include: cash for your existing trucks, replacement with new, fuel efficient trucks, flexible terms, a maintenance plan to improve vehicle uptime, a guaranteed used truck value, and a financial structure that meets your EBITDA, EBIT, ROA, and ROI goals.

A typical private fleet in ownership has 10% to 30% more vehicles than needed. With a Full Service Lease, your vehicles are well maintained, allowing you to significantly reduce the number of trucks you operate, lower your operating costs and keep your promises to your customers.

LEASING IS A SOLUTION YOU CAN'T AFFORD TO IGNORE.

Commercial truck ownership is getting more challenging and costly to manage every day. Consider transitioning to a Full Service Lease and improve your financial ratios. Your lenders and/or shareholders will thank you. The fact is that for most well-run businesses, full service leasing is a superior financial and operational alternative to ownership. Take a minute to sit down with an Idealease Account Manager. We will put you in the driver's seat with facts that will help you make the best long-term financial decision for your business.

Ownership Transition Benefits:

- Unlock the equity in your truck fleet
- Improved cash flow
- Conserve credit lines
- No down payment
- Improved vehicle uptime
- Guaranteed maintenance costs
- Predictable Maintenance parts and labor
- Preventive Maintenance
- Predictable tire repair and replacement
- Priority Service at more than 430 locations
- Dedicated Priority Service bays
- Expert technicians
- Built-in used truck disposal
- Lock in fair residual value

Do the Math!

Full service leasing pulls all six components of truck operations together.

1. Purchase price
2. Financing
3. Used truck disposal
4. Maintenance services
5. Peripheral services (washing, rentals, fuel program, etc.)
6. Administration (truck licensing, regulatory compliance, etc.)

IS OWNERSHIP TRANSITION RIGHT FOR YOU?

We understand that commercial truck leasing is considered by many to be a high cost convenience. It's not—and we can prove it! For more than 30 years, Idealease has been the expert in efficiently transitioning private fleets of all sizes from ownership to full service leasing.

Our Ownership Transition program will minimize the cost of acquiring and maintaining a truck fleet while maximizing your ability to provide premium service to your customers.

The Ownership Transition Four Step Process:

1. LEASE PROGRAM OPTIONS

We will help you select the best leasing option for your business. If you want to keep your vehicles off your balance sheet, a Full Service Lease (also known as an operating lease) is a great option. If you need to own your own trucks for tax reasons or the truck application, our Full Service Equity Lease (also known as a capital lease) is the right choice.

2. FLEET VALUATION ASSESSMENT

We will analyze the age, size and configuration of your fleet. We can purchase your trucks and replace them with new vehicles or lease them back to you. If replacement trucks are needed, Idealease will ensure that we order the right trucks for your application.

3. MAINTENANCE PROGRAM SELECTION

If you have trucks that are less than a year old and the spec is correct for the application, we may offer our Guaranteed Maintenance program. For older equipment that meets terms and conditions, we may offer a maintenance program where all services are billed as work is performed.

4. RELATIONSHIP ORIENTATION

We will meet with your key personnel to review our support services and detail the road map to Ownership Transition. Ownership Transition can be new concept so setting our mutual expectations upfront is critical to building a successful relationship that helps you serve your customers even better.

Unlock the equity in your truck fleet and improve your service to your customers. You can count on our expert Idealease Account Manager to show you the true cost of ownership and explain the advantages of a fleet buyout and a Full Service Lease. Our responsive service will help keep your business running smoothly, allowing you to focus even more attention on serving your customers and growing your business.
